

Christiana Knais

Christiana is the Managing Director of the Mediterranean Management Center (MMC) in Cyprus with over two decades of expertise in crafting and implementing innovative training solutions spanning both initial and continuous Vocational Education and Training (VET). She is honored to be a member of the Cyprus VET Team of Experts.

Christiana has extensive expertise in sustainability-related training and project management, particularly within educational institutions through the Whole Institution Approach as well as the business sector. She is an advocate for sustainable practices. She is currently coordinating a significant project entitled "Route to Transformation of Educational Institutions through Whole Institution Approach to Sustainability". Additionally, she participates in different green projects. Christiana is an expert in the implementation of major European sustainability policies.

As an expert training facilitator, Christiana has empowered numerous CEOs, directors, and professionals with her profound knowledge and experience. She holds a BSc in Computer Science and Accounting from the University of Manchester and an MSc in Marketing from UMIST. Additionally, she is an active member of the Cyprus Human Resource Management Association, where she consistently contributes to the enhancement of professional standards and practices.
